Event Timings

As a rough guide, for live music, a standard event opens at 7pm and will finish by 11pm. This may vary from show to show, so we advise checking the event listing on our website for individual show details.

The opening time will also be stated on your ticket. Please note that this will be the time the venue opens, not the time the show begins.

Stage times for each event will usually be shared on our venue social media accounts in the days leading up to the event. These are subject to change.

Opening times for other event types vary greatly so we recommend you check the individual event listings for information.

If you have any queries regarding planning the timings of your journey or visit, please get in touch.

Arriving at the Venue

When you get here, we offer priority entry ahead of the queue for those with additional needs. Please make yourself known to a member of security at the main doors and they will escort you through.

If you have booked a space in the accessible area, or have reserved tickets for collection, you will need to speak to a member of our box office team who will give you the relevant accreditation.

The box office is located directly inside the main entrance. To collect your accreditation or tickets, you will need to bring along a copy of your email confirmation.

From there, a steward will direct you to the area in which you are booked, and point out the accessible facilities.

If your tickets have been posted in advance or you are holding an e-ticket and you do not have a personal assistant ticket or access area pass to collect, you do not need to visit the box office.

In this case, the door staff will scan your ticket and show you to the relevant area and point out your nearest accessible facilities.
